Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Introduction

1. The Examiner has carefully considered Applicants' amendments and remarks filed on 2/15/2005. Applicants' cancellation of claims 5-7, and new claim 31 have been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Rejections not maintained are withdrawn.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claim 31 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

More particularly, in claim 31, line 2, the phrase "optionally at least one metal halide" is vague and indefinite. The Examiner notes that the terms "optionally" and "at least" are not mutually commensurate with each other. Clarification is requested.

Rejections Based on Prior Art

4. Claim 31 is rejected under 35 U.S.C. 102(e) as being anticipated by Ash (US 5955019).

Ash's invention describes a process for making filaments or fibers of alternating aliphatic polyketones in solvents of zinc and lithium based halide solutions (Abstract; column 1, lines 10-11), such as aqueous solutions of ZnX_2 and LiY , wherein X selected from Cl, Br and I, and Y is selected from Br, I and SCN (column 1, lines 49-61). The polymer chain of the polyketone contains repeating units of carbonyl group and moiety of ethylenically unsaturated units, with 10 to 100 units incorporated (column 2, lines 1-47). As to the recitation "optionally ...", the Examiner notes that since they are claimed as optional, there is no requirement for the prior art to provide or account for them. As such, it does not constitute a limitation in any patentable sense.

For newly added claim 31, Ash anticipates the invention as claimed, claim lacks novelty.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1771

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
